Continuation Sheet Attached								
Brief Description of Arguments to be Presented: Sloo teaches away from selection of a positive or negative rating category upon first electronic communication with a user. Only upon completion of the entire process of resolving a complaint is a positive complaint resolution or negative complaint resolution category provided. None of the references teach or suggest a voluntary monetary contribution to an independent service provider in association with a positive or negative rating category.								
An interview was conducted on the above-identified application on								
NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEPE § 713.01). This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.								
(Applicant/Applicant's Representative Signature) (Examiner/SPE Signature)								

This collection of information is required by 37 CFR 1.133. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 21 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO.

S/N 09/651,680

1. (Proposed Amendment) A method for consumer recording and publicly reporting monetary commentary, the method comprising:

electronically communicating with a service provider at a first time to permit a user to:

select an entity;

select a positive rating category or a negative rating category for the user-selected entity;

voluntarily provide a monetary contribution to the service provider to provide a quantifiable indication of user satisfaction or dissatisfaction with the user-selected entity thereby build the reputation of the user-selected entity up or down;

storing data related to the user-selected entity, a value of the monetary contribution and the user selection of the positive rating category or the negative rating category; and

electronically communicating with the service provider at a second time different from the first time to:

select the entity; and

retrieve stored data from the service provider related to the user-selected entity and the value of the monetary contributions and selections of the positive rating category and the negative rating category.
